PRINCIPLES OF COMPETITION

As part of our commitment to improving the competitive experiences for all young people we will be using "Principles of Competition & SMILES"
We hop that all schools in our Partnership adopt and are committed to these.

Principles of Competition

1. The young person's motivation, competence and confidence are the centre of the competition
2. The focus is on the PROCESS rather than the OUTCOME (On Learning and values and development of the young person rather than the result of matches/games etc.
3. Volunteers, leaders and officials are appropriately trained and display behaviour's reflective of the nature of the competition.
4. The environment is safe and creates opportunities to learn and maximise social development
5. The facility and environment that is created for the competition reflects the motivation, competence and confidence of the young people and format of the competition
